Matthew Chibbaro

Patterson Recreation Summer Camp

The State of New York has simplified the way in which sunscreen is regulated in camps and schools. In an effort to promote the use of sunscreen, a medical providers order is no longer necessary to allow children to carry and apply their own sunscreen. All that is required is written parental consent.

I, _____ (print name of parent/guardian) give
permission to my child, _____ (print name of
child) to carry and apply an FDA approved sunscreen which I have provided. If my
child is physically unable to apply sunscreen and my child asks for assistance in
applying the sunscreen I have provided, then a Patterson Recreation staff member
may assist my child.
